Pardeep Soni

Data Scientist | AI/ML Engineer | GenAI & Agentic AI Specialist

Gurugram, India · Open to Relocation | UK Right to Work (Youth Mobility Scheme Visa) · +91-99967-75545 · pardeep13sept@gmail.com
linkedin.com/in/pardeep13 · github.com/pardeep-soni · leetcode.com/u/pardeep-ds

SUMMARY

Data Scientist and AI/ML Engineer specializing in production-grade Generative and Agentic AI for Fortune 500 clients, with an M.Tech in AI & ML from BITS Pilani. Five years across the full ML lifecycle — predictive modeling, deep learning, NLP, computer vision, and MLOps — with deep, hands-on delivery of LLM, RAG, and multi-agent systems on Google Cloud and Azure. 2x LinkedIn Top Data Science Voice and 3x Deloitte Applause Award recipient.

WORK AUTHORIZATION (UK)

> Eligible to live and work in the UK under the **India Young Professionals Scheme (Youth Mobility Scheme) visa** — no employer sponsorship required. Visa valid for up to 2 years.

CORE COMPETENCIES

- **Generative & Agentic AI:** Google ADK, AgentSpace, Agent Engine, LangChain, LangGraph, MCP (Model Context Protocol), RAG, Multi-Agent Orchestration, Prompt Engineering, LLM Evaluation, Function Calling, Guardrails, Responsible AI, Fine-Tuning
- **LLMs & Foundation Models:** OpenAI GPT-5 series (incl. GPT-5.6), Google Gemini 3 series (Gemini 3.5, 3.1 Pro), Anthropic Claude (Opus 4.8, Sonnet 5)
- **Embeddings & Vector Stores:** Vertex AI Embeddings, OpenAI text-embedding-3, Sentence-Transformers, BGE, FAISS, Pinecone, ChromaDB
- **ML & Deep Learning:** Predictive Modeling, NLP, Computer Vision, CNNs, Transfer Learning, Time-Series, Bayesian Methods, A/B Testing, Feature Engineering, MLOps
- **Programming & Data:** Python (pandas, NumPy, scikit-learn, TensorFlow, PyTorch, Keras), SQL, PySpark, FastAPI, Flask, REST APIs
- **Cloud & MLOps:** GCP (Vertex AI, Cloud Run, Pub/Sub, BigQuery, Dialogflow CX, IAM), Azure ML, Azure Cognitive Services, Docker, MLflow, GitHub Actions, CI/CD, Model Monitoring

PROFESSIONAL EXPERIENCE

Deloitte USI — AI & Data Consultant

Gurugram, India · Oct 2024 – Present

Core member of Deloitte's GCP Agentic AI Incubator, building production GenAI and agentic solutions across healthcare, financial services, and technology.

- Architected and shipped **6+ modular production agents** (security, onboarding, payments, legal, marketing, software-insights) using Google ADK, AgentSpace, and LangGraph, productized as reusable enterprise assets.
- Built and deployed **one of the firm's earliest production MCP (Model Context Protocol) servers** for Humana, integrating Genesys, Pub/Sub, Agent Assist, and Cloud Run with JWT authentication.
- Drove a **32% increase in test coverage** for Humana HIMS through GenAI-assisted test generation and automation.
- Co-led a strategic **AgentSpace delivery for Cardinal Health** (showcased jointly with Google), building ingestion pipelines for unstructured `.txt`/`.msg` data and validating 3 data-conversion approaches — accelerating delivery by **~4 weeks**.
- Owned the **Flux agent end-to-end** on Google's internal Finance project; rapidly upskilled on proprietary infrastructure (PLX), deployed to production, and earned direct client appreciation.
- Built an independent **RAG-evaluation module for Deloitte Scout** (featured in "25 in '25"), benchmarking LLM course recommendations against SQL ground truth to enable quantitative quality validation; transitioned to production.
- Presented live agent demonstrations at **Google Next 2025** to global clients and Google leadership; mentored junior consultants and authored architecture standards adopted across the practice.

Ernst & Young (GDS) — AI Engineer

Noida, India · May 2024 – Oct 2024

- Built an NLP role-recommendation chatbot with LangChain and prompt engineering over a relational database (tokenization, chunking, contextual retrieval).
- Automated access provisioning by integrating the chatbot with ServiceNow, reducing manual ticket-handling effort.

IBM Software Labs — Machine Learning Engineer

India · Sep 2023 – Mar 2024

- Integrated IBM watsonx with Maximo's Predictive Maintenance module, enabling ML-driven anomaly detection to reduce maintenance cost and asset downtime.
- Designed GenAI / LLM-powered Maximo features (sensor-failure prediction, advanced anomaly detection) shipped in subsequent product releases.

Brillio Technologies — Data Scientist

Bengaluru, India · Jun 2021 – Sep 2023

- **Bristol Myers Squibb (Life Sciences):** Built and deployed ML/DL models on GCP for disease detection and biomedical entity extraction from medical records; benchmarked GCP AI services across image, tabular, and text modalities for accuracy, cost, and latency.
- **Ruffalo Noel Levitz (Education):** Designed an enrollment-likelihood model combining socio-economic, geo-demographic, and inquiry signals; implemented end-to-end Azure MLOps with CI/CD pipelines.
- **Internal:** Built revenue-forecasting models from historical pipeline data to inform resource allocation and revenue planning.

EDUCATION

- **M.Tech, Artificial Intelligence & Machine Learning** — BITS Pilani · 2023–2025
- **PG Diploma, Big Data Analytics** — CDAC Knowledge Park, Bengaluru · 2020–2021
- **B.Tech, Computer Science & Engineering** — Kurukshetra University · 2020

CERTIFICATIONS

- **Microsoft Certified: Azure Data Scientist Associate (DP-100)**
- **Claude 101** — Anthropic · Jun 2026 · Credential ID gjtwd9pvy35r
- **Claude Code in Action** — Anthropic · Jun 2026 · Credential ID 46pw4v8zh2ny

SELECTED PROJECTS

- **AI-Driven Disease Detection & Clinical Consultation** *(RAG, Computer Vision, ML)* — End-to-end framework for early diagnosis of diabetes and diabetic retinopathy: a Random Forest predictor (87% accuracy) and a ResNet-34 retinopathy classifier, with a Streamlit app and a RAG-based clinical chatbot (FAISS) for real-time consultations.
- **HerbLens — Indian Medicinal Plant Recognition** *(CNN, Transfer Learning, Few-Shot Learning)* — CNN using transfer and few-shot learning to identify Indian medicinal plants from leaf images, delivered via web and Android interfaces.

AWARDS & RECOGNITION

- **3x Applause Awards, Deloitte USI (2025)** — performance, ownership, and collaboration.
- **2x LinkedIn Top Data Science Voice** — thought leadership and community contribution.
- **Featured Demo Presenter, Google Next 2025** — via Deloitte's Agentic AI Incubator.
